Two Way Plastic Cabinet Active Professional Speaker

DESCRIPTION

The R15A is a 15-inch, two-way, powered, portable speaker system. It is a complete self contained sound reinforcement system, capable of full-bandwidth reproduction at high levels with the added benefit of a microphone pre-amp enabling the direct connection of a dynamic microphone. The R15A is comprised of a 15" woofer, 1.75" high frequency compression driver coupled to a 100° H by 60° V waveguide. Both components are driven by the discrete channels of a integrated power amplifier. The input section contains all cross-over functions, protection, and system EQ functionality
