

## Z 12

DATASHEET

### Two Way Plastic Cabinet Professional Speaker

#### DESCRIPTION

Designed and tuned in the Turkey, Sti Professional's Z12A boasts an all-new 1200-watt peak power. With a reimagined 12-inch low-frequency driver fused with a new 2-inch horn-loaded high-frequency driver with a precision waveguide, Z12 has been painstakingly designed to play louder, handle more power and produce a level of clarity at higher SPLs that defies belief. With an extended-range frequency response and exceptional heat dissipation for impressive power-handling, plus large crossover protection, Z12 guarantees to withstand the rigours of the road and secures your peace-of-mind, even at all-night-long concert levels.

Crossover Frequency	65Hz-18kHz
Impedance	8 Ohms
Dispersion	H90°xV40°
RMS	600W
Peak Power	1200W/5Min
Sensitivity	97 dB (2,83v/m)
Maximum SPL	125 dB
Connection	2xSpeakon NL4R
Woofer	12"x1(310mm)
Tweeter	2"x1 (50mm)
Size (HxWxD)	613x397x362mm
Weight	19kg
