

Z 15

DATASHEET

Two Way Plastic Cabinet Professional Speaker

DESCRIPTION

Designed and tuned in the Turkey, Sti Professional's Z15 boasts an all-new 1600-watt peak power. With a reimagined 15-inch low-frequency driver fused with a new 2-inch horn-loaded high-frequency driver with a precision waveguide, Z15 has been painstakingly designed to play louder, handle more power and produce a level of clarity at higher SPLs that defies belief. With an extended-range frequency response and exceptional heat dissipation for impressive power-handling, plus large crossover protection, Z15 guarantees to withstand the rigours of the road and secures your peace-of-mind, even at all-night-long concert levels.

Crossover Frequency	55Hz-18kHz
Impedance	8 Ohms
Dispersion	H90°×V40°
RMS	800W
Peak Power	1600W/5Min
Sensitivity	99 dB (2,83v/m)
Maximum SPL	128 dB
Connection	2×Speakon NL4R
Woofer	15"×1(380mm)
Tweeter	2"×1 (50mm)
Size (HxWxD)	686×445×406mm
Weight	20kg
